17th

SECURITY DOCUMENT SUMMIT

SDS

17-18 May 2023
Beijing, China

ORGANISED BY:

SID Security
Identification
Union

Held Concurrently

2023 身份识别技术大会
2023 Identity Recognition Summit（IDS）

2023 Track-Tech 防伪溯源技术展
Anti-counterfeiting and Traceability Exhibition（Track-Tech）

KEY TOPICS

Banknotes and Security Printing

- Security design systems, design services, and plate making
- Engraving Intaglio, watermark technology, OVI/OVMI
- Safety features and materials, invisible markers
- Detection technology and inspection equipment

ID and Travel Documents

- ID card printing machine, personalization machine
- Laminated plates and substrate, security features
- Document Reader and Detection Equipment
- ID management information system and solution

Brand protection

- Product anti-counterfeiting technology, traceability
- Mobile authentication, RFID, and NFC traceability solution
- Smart Security Labels and Technical Packaging Solutions
- Trace and Track Technology and Tax Stamp Solution

Biometrics Technology

- Artificial intelligence identification technology
- Facial recognition and Iris biometrics technology
- Fingerprint, palmprint, and voiceprint biometrics
- Behavioural biometrics, Mobile biometrics
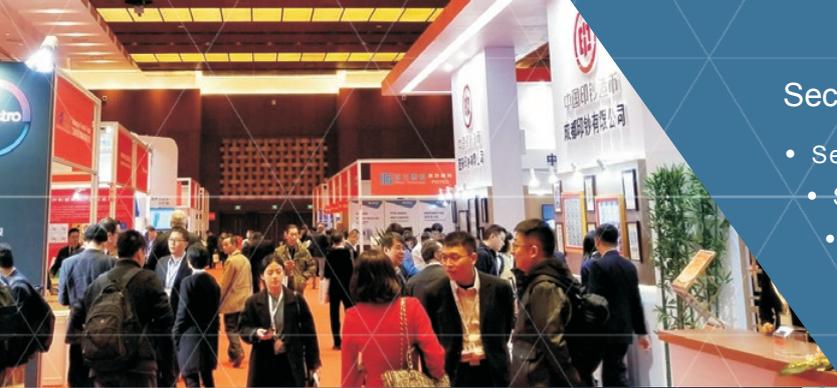

Security Material

- Security paper, security inks, and effect pigments
- Security materials, fibre, threads, and taggants
- Substrates (PVC, PET, PETG, PC, ABS etc.)
- Holography materials, micro-nano materials

Digital Identity and Authentication Technology

- Identity authentication platforms and systems, E-ID
- Big data management solutions, cloud computing
- Blockchain solution in security document
- ID fraud prevention and detection,

WHO SHOULD
ATTEND

Government & Applied Departments

- Central Banks
- Financial institutions
- Issuers of ID documents
  IDs, Passports, visas, driver's license
- Public Security and Identity
  Management Agencies
- Border and immigration control
- Law enforcement agencies

- IC card issuing organizations
  bank cards, social security cards
- Issuers of all kinds of bills
  invoice, financial bills, business bills
- Brand owners from
  cigarettes, cosmetics, pharmaceuticals..
- Issuers of ticket's organizations
- Industry association and media

Suppliers & Service Providers

- Banknote Print Works
- Commercial high-security printers
- Suppliers and integrators of passports and IDs
- Security materials and Substrates
- Biometrics technology suppliers
- Trace and Track technology suppliers
- Digital identity and system suppliers
- Security document detection and identification
  equipment suppliers
- Product and Technology intergrators

Highlight

★ The activities will be co-organized by three authoritative leading organizations in china . CIAPST is a national association for science and technology in China. The First Research Institute of the Ministry of Public Security is China's ID Documents research administration agency. SID is the only professional association dedicated to security documents in China.

★ It has been successfully held for 20 years, bringing together all government issuing departments and end users in the field of security documents and brand protectionin China.

★ In recent years, China's major safety document projects are in a critical period of renewal, so it is the chance to find new opportunities and new markets after the covid-19 epidemic.

★ The largest summit in the security industry in Asia, with 1,000 delegates, 260 booths,80 speeches, and 5,000 audience.

★ The three major events of SDS, IDS and Track-Tech will be held concurrently, which are available to display physical and digital technology, security documents and brand protection technology, biometrics and trusted technology.

VENUE: China National Convention Center Beijing

The highest standard professional convention center in China, with a high-level hardware setup. SDS is held on the fourth floor of the venue, with a total exhibition and conference area of 1,2000 square meters.

It served as the venue for the 2008 Beijing Olympic Games, the main venue of APEC in 2014, and is often used to host Chinese government conferences

East Meets West
Linking tradition with future

17th Security Document Summit

China's border reopening

From January 8, 2023, China has lifted pandemic restrictions on foreign travel, ending quarantine requirements for inbound travelers.

6000+ Total number of visitors

Held Concurrently

17th Security Document Exhibition & Summit

2023 Identity Recognition Summit (IDS)

Anti-counterfeiting and Traceability Exhibition (Trcak-Tech)

Organisers

China International Association for Promotion of Science and Technology(CIAPST)

CIAPST is a national association for science and technology in China. CIAPST was established in 1988 through the approval of the Leadership Council of Science and Technology under the State Department of the People's Republic of China.To promote the development of science and technology for the purpose .And merging science and technology with market economy,and to strengthen the internationa1 exchange of science technology.

The First Research Institute of the Ministry of Public Security

The institute is a comprehensive research institute directly under the Ministry of Public Security in China. For a long time, it has been responsible for providing products, system solutions, engineering implementation and technical services for public security work and social security. The institute is the China's ID document research administration agency.

Security Identification Union (SID)

SID is a national association under the leadership of CIAPST, whose headquarter is located in Beijing, China. It has been committed to promoting global security industry cooperation and technology applications for 20 years, and has participated in a large number of major national projects in the field of identity security in China. Now it has more than 200 membership units and is the only professional association dedicated to security documents and identification in China.

The first research institute of the ministry of public security and national engineering laboratory for multidimensional identification and trusted authentication technology that participated in SDS as One of the organizers, have also maintained good communication and cooperation between experts and enterprises in the security industry for years.

Rui Yu, Deputy Director, The First Research Institute of Public Security Ministry

In China, SDS attracts attendees that represent security industry segments and professional skillsets—from developers to decision-makers. De La Rue has regarded SDS as an important way to develop the Chinese market.

Richard Hird, COO of De La Rue

Since the first SDS session, China Banknote Printing and Minting Corporation has been an important participant, witness, and supporter. We are very proud of the achievements of SDS.

Wentian Yang, Deputy General Manager, China Banknote Printing and Minting Corporation

We are proud to participate regularly in the work of the SDS Conference. We highly appreciate the opportunity to increase the awareness of our activities and products among the most professional experts of in the Chinese market and the neighbouring countries.
